NOTE:

- A new contract term applies to plan changes.** The new contract end date will be either 12 months from the date of the plan change, or, the original contract end date, whichever is later. Early termination of the agreement incurs a cancellation fee equivalent to the total of the remaining monthly access fees. Change of phone line or relocation to another address is equivalent to termination and a new service.
- If you select a plan with a different Max Speed to your current DSL plan a once off \$39 Speed Change Fee will be charged to your account. There is no charge to change from one plan to another, of the same speed, other than the new monthly rate.
- Changes to billing and data allocation will be effective from the 1st of the month following this request, however changes to the speed of the Service will be processed upon receipt of this form, taking effect within 1-5 days.
- Additional data consumed is charged at 0.5 cents/MB.
- ADSL may not be available due to a variety of technical reasons.
- ADSL2+ speeds are available in Queensland only, and may not be available in all locations.
- If converting from a Personal plan, the data/usage will be reset and the plan anniversary date will change to 1st monthly.
- With the higher speeds, the actual speed depends on the customer line quality and distance, internal building wiring, as well as the CPE used. The speed can therefore only be accurately determined once the service has been installed and tested. It is estimated that approximately 2/3 of customer locations should experience at least 6Mbps. Newer ADSL2+ capable CPE are recommended to obtain speeds greater than 6Mbps. OntheNet does not guarantee that higher speeds will be attainable in all cases.
